	L a	A German railroad official stated that the loadings in the Wittstock -Netzeband area were completed by 16 February. A total of 2,000 cars had been loaded, with most of the shipments bound for Magdeburg and some also for Schwerin.	
25X1	l.	Comment. All shipments were previously reported by one or several sources.	
25X1	2.	Comment. The train with shipment-record probably carried additional units of the 34th Arty Div (US) which were to conduct combat firing practice at Altengrabow. So far, elements of the division were on one train each shipped to the troop training grounds from 7 to 11 February and 16 to 20 February respectively.	25X1

25X1	4 0	Comment. The two trains probably shipped units of the 9th Gds Tank Div to several-day combat firing practices to the northern section of the Jueterbog troop training grounds. The troop train loaded with guns, which another source reported to have seen at the Neustrelitz railroad station, headed toward Berlin on 23 Febru- ary, presumably is identical with shipment	25X1

25X1	5.	Comment. After 14 February, units which completed field exercises in the Wittstock-Netzeband area were loaded. Several reports definitely indicate that, from the Wittstock-Pritzwalk area, only units of the Third Shock Army returned to their posts while, from the Netzebrand railroad station, units of the 9th Gds Tank Div from Neustrelitz returned home. Thus, the statements by the railroad official are only partially correct.
